§10:37H-1.1 Purpose and scope

The rules in this chapter govern the provision of case management services by provider agencies funded by the Department of Children and Families to serve youth under 21 years of age, to assure that such services are delivered to youth and their families in an efficient and effective manner. Youth case management services are off-site community-based services intended to assist youth and their families in identifying, accessing and receiving appropriate mental health services. Youth case management services are directed toward those youth who are emotionally/behaviorally challenged and are either at high risk of serious decompensation, in need of an array of mental health services, unresponsive to more traditional community-based clinical interventions, in need of extensive service coordination or expected to be returning to a community setting from a residential setting.
